

SELECTED PROJECTS

Esperanza Health Center Philadelphia, PA

Adaptive reuse of 35,000 sf historic bank building as neighborhood full-service health center. Project includes two floors of exam rooms, dental suite, behavioral health, a café, a chapel and comprehensive community services.

Stephen Klein Wellness Center Project HOME Philadelphia, PA

A new LEED Silver 30,000 sf primary care center that will also contain a YMCA with a child care facility, community educational facilities, a dental suite and administrative / outreach functions.

St. Sahag & St. Mesrob Armenian Church Wynnewood, PA

Renovation of existing church building including the Social Hall, classrooms, and kitchen. Scope also includes upgrade of street facades, building systems, and improvements to accessibility.

Orangetown Jewish Center Orangeburg, NY

Addition and renovation of this suburban synagogue. The project included an expansion and renovation of the sanctuary and the addition of a new social hall. The “backdoor” entrance from the rear parking lot was reimagined as the building’s main entrance, and the sanctuary’s much beloved stained glass windows were carefully relocated in the new design.

Philadelphia University – Guest Juror

Following 20 years of leading the firm’s healthcare team, Scott is BH+L’s managing partner remaining involved in all of the firm’s projects and activities.

His work with user groups, building committees, and facilities departments makes him a versatile participant in design team activities and charrettes.

Scott’s extensive knowledge of healthcare facility guidelines and current trends in evidence-based design along with his creativity in balancing user group needs with facility department concerns is the reason for our ability to retain many repeat clients. His current work includes several projects for Jefferson Health, Trinity Health, and Ursinus College.
