SELECTED PROJECTS

Jefferson Health
Surgical Waiting
Philadelphia PA

This project is the planning, design, and documentation of the relocation of the Surgical Waiting area in the Gibbon Building at Jefferson's Center City location. The 3800 square foot 140-seat space provides maximum capacity while maintaining privacy for patients' families. The facility includes private debriefing rooms to communicate with families regarding their loved ones' conditions following surgery.

KESSA WEISS

Intern Architect

EDUCATION

Drexel University
Philadelphia, PA
Bachelor of Architecture, 2027

HONORS and AWARDS
