

SELECTED PROJECTS

Temple Ner Tamid Bloomfield, NJ

Design and documentation for the renovation and addition to a mid-century synagogue in the Washington, DC suburbs. Scope included new entrance, expansion of lobby and sanctuary, and upgrade of finishes throughout the building.

Temple Shalom Chevy Chase, MD

Master Plan for the renovation and addition to a mid-century synagogue in the Washington, DC suburbs. Scope included new central lobby that consolidated circulation and two entrances, full accessibility, updated social hall, and a new chapel.

Fountain of Life Church Burlington, NJ

Planning study for a new 1200 seat church building as part of a 110 acre campus that includes a K-12 school and a life center. The project includes the renovation of existing buildings.

Wismar Center Ursinus College Collegeville, PA

Design and documentation of the college's primary dining center. This fast-track project was documented in a very short period in order for the work to be done during the summer break.

JACK JAGGS NELSON Staff Architect

EDUCATION

Curtin University
Perth, Australia

*Bachelor of Applied Science
– Architectural Science*

Temple University
Philadelphia, PA
Master of Architecture, 2026

Before joining Brawer Hauptman + Larkin, Jack spent over ten years in healthcare product sales and project management in Sydney. He brings to the firm a valuable understanding of planning and a wide range of software knowledge. His experience and skill allows us to produce a high level of presentation materials that give our clients and their teams a greater understanding of the project and benefits the design process.
